

Press release

**AT SIGEP, GLF AND LUCA MONTERSINO PRESENT RISOLI,
THE BEST NON-DAIRY CHOICE
Saturday 23 January - 12 pm
Hall B5, stand 074**

The presentation to the press of Risoli, the non-dairy alternative to traditional butter developed by Unigrà in collaboration with Luca Montersino, is scheduled for Saturday 23 January at 12 pm in the GLF exhibition space (Hall The famous TV host, Federico Quaranta, will host the event. Objective: to offer a top of the range, 100% non-dairy product for sweet and savoury applications in confectionery and catering, in response to new food trends.

SIGEP Rimini Fiera, 23 - 27 January 2016. GLF, the Unigrà brand dedicated to the "artisanal" channel dedicates the opening day of **Sigep** - International Exhibition of Artisan Ice Cream, Confectionery and Bakery Production, scheduled **from 23 to 27 January in Rimini Fiera** - to the **presentation to the press of one of its latest products: Risoli**, the best non-dairy choice alternative to butter.

Risoli stems from a long partnership project between Unigrà - with its consolidated expertise in the world of oils and fats - and the renowned pastry chef, Luca Montersino, a long-standing supporter of a high-quality confectionery dedicated to anyone who wants to eat well and enjoy light, natural food. The study of quality primary ingredients and their processing and production on an industrial scale, has led to a high-quality product, finally available to professionals looking for unique and avant-garde ingredients.

Risoli is the quality response to **professionals' request for an alternate ingredient to butter**, but also suitable for vegetarians or consumers with problems of intolerance to milk or lactose. In actual fact, there are 1.8 million Italians affected by food allergies and intolerances and an increase in the number of people who, although not suffering from any type of disorder, have decided of their own volition to opt for a more balanced diet which often involves excluding certain types of ingredients.

On Saturday, **23 January at midday**, Risoli will be premiered to the press **at the GLF exhibition space**, Hall B5, stand 074). **Luca Montersino** will be once again illustrating the unique, distinctive features of this product, partnered by **Federico Quaranta**, accredited food and wine expert, unmistakable voice behind the radio programme *Decanter* and presenter of numerous TV programmes.

The same exceptional duo will also be on the GLF stand on **Sunday 24 January from 10 am onwards**, when Risoli will be presented to GLF customers with an event dedicated to them. They will then be able to watch the exclusive presentation by chef Montersino and taste the delicious finished product made with this innovative ingredient.
